

CORIAN®
DESIGN

Explore how Corian® Design
can help grow your business.

Start here!

Corian® Design provides solutions for food service establishments inside and out with its Corian® Solid Surface, Corian® Endura™, and Corian® Quartz products. From being a one stop shop for a selection of surface design materials to collaborations with fabricators and designers to improve the guest experience. We're working to help the restaurant industry adapt, and stay open safely with our offerings.

Exteriors

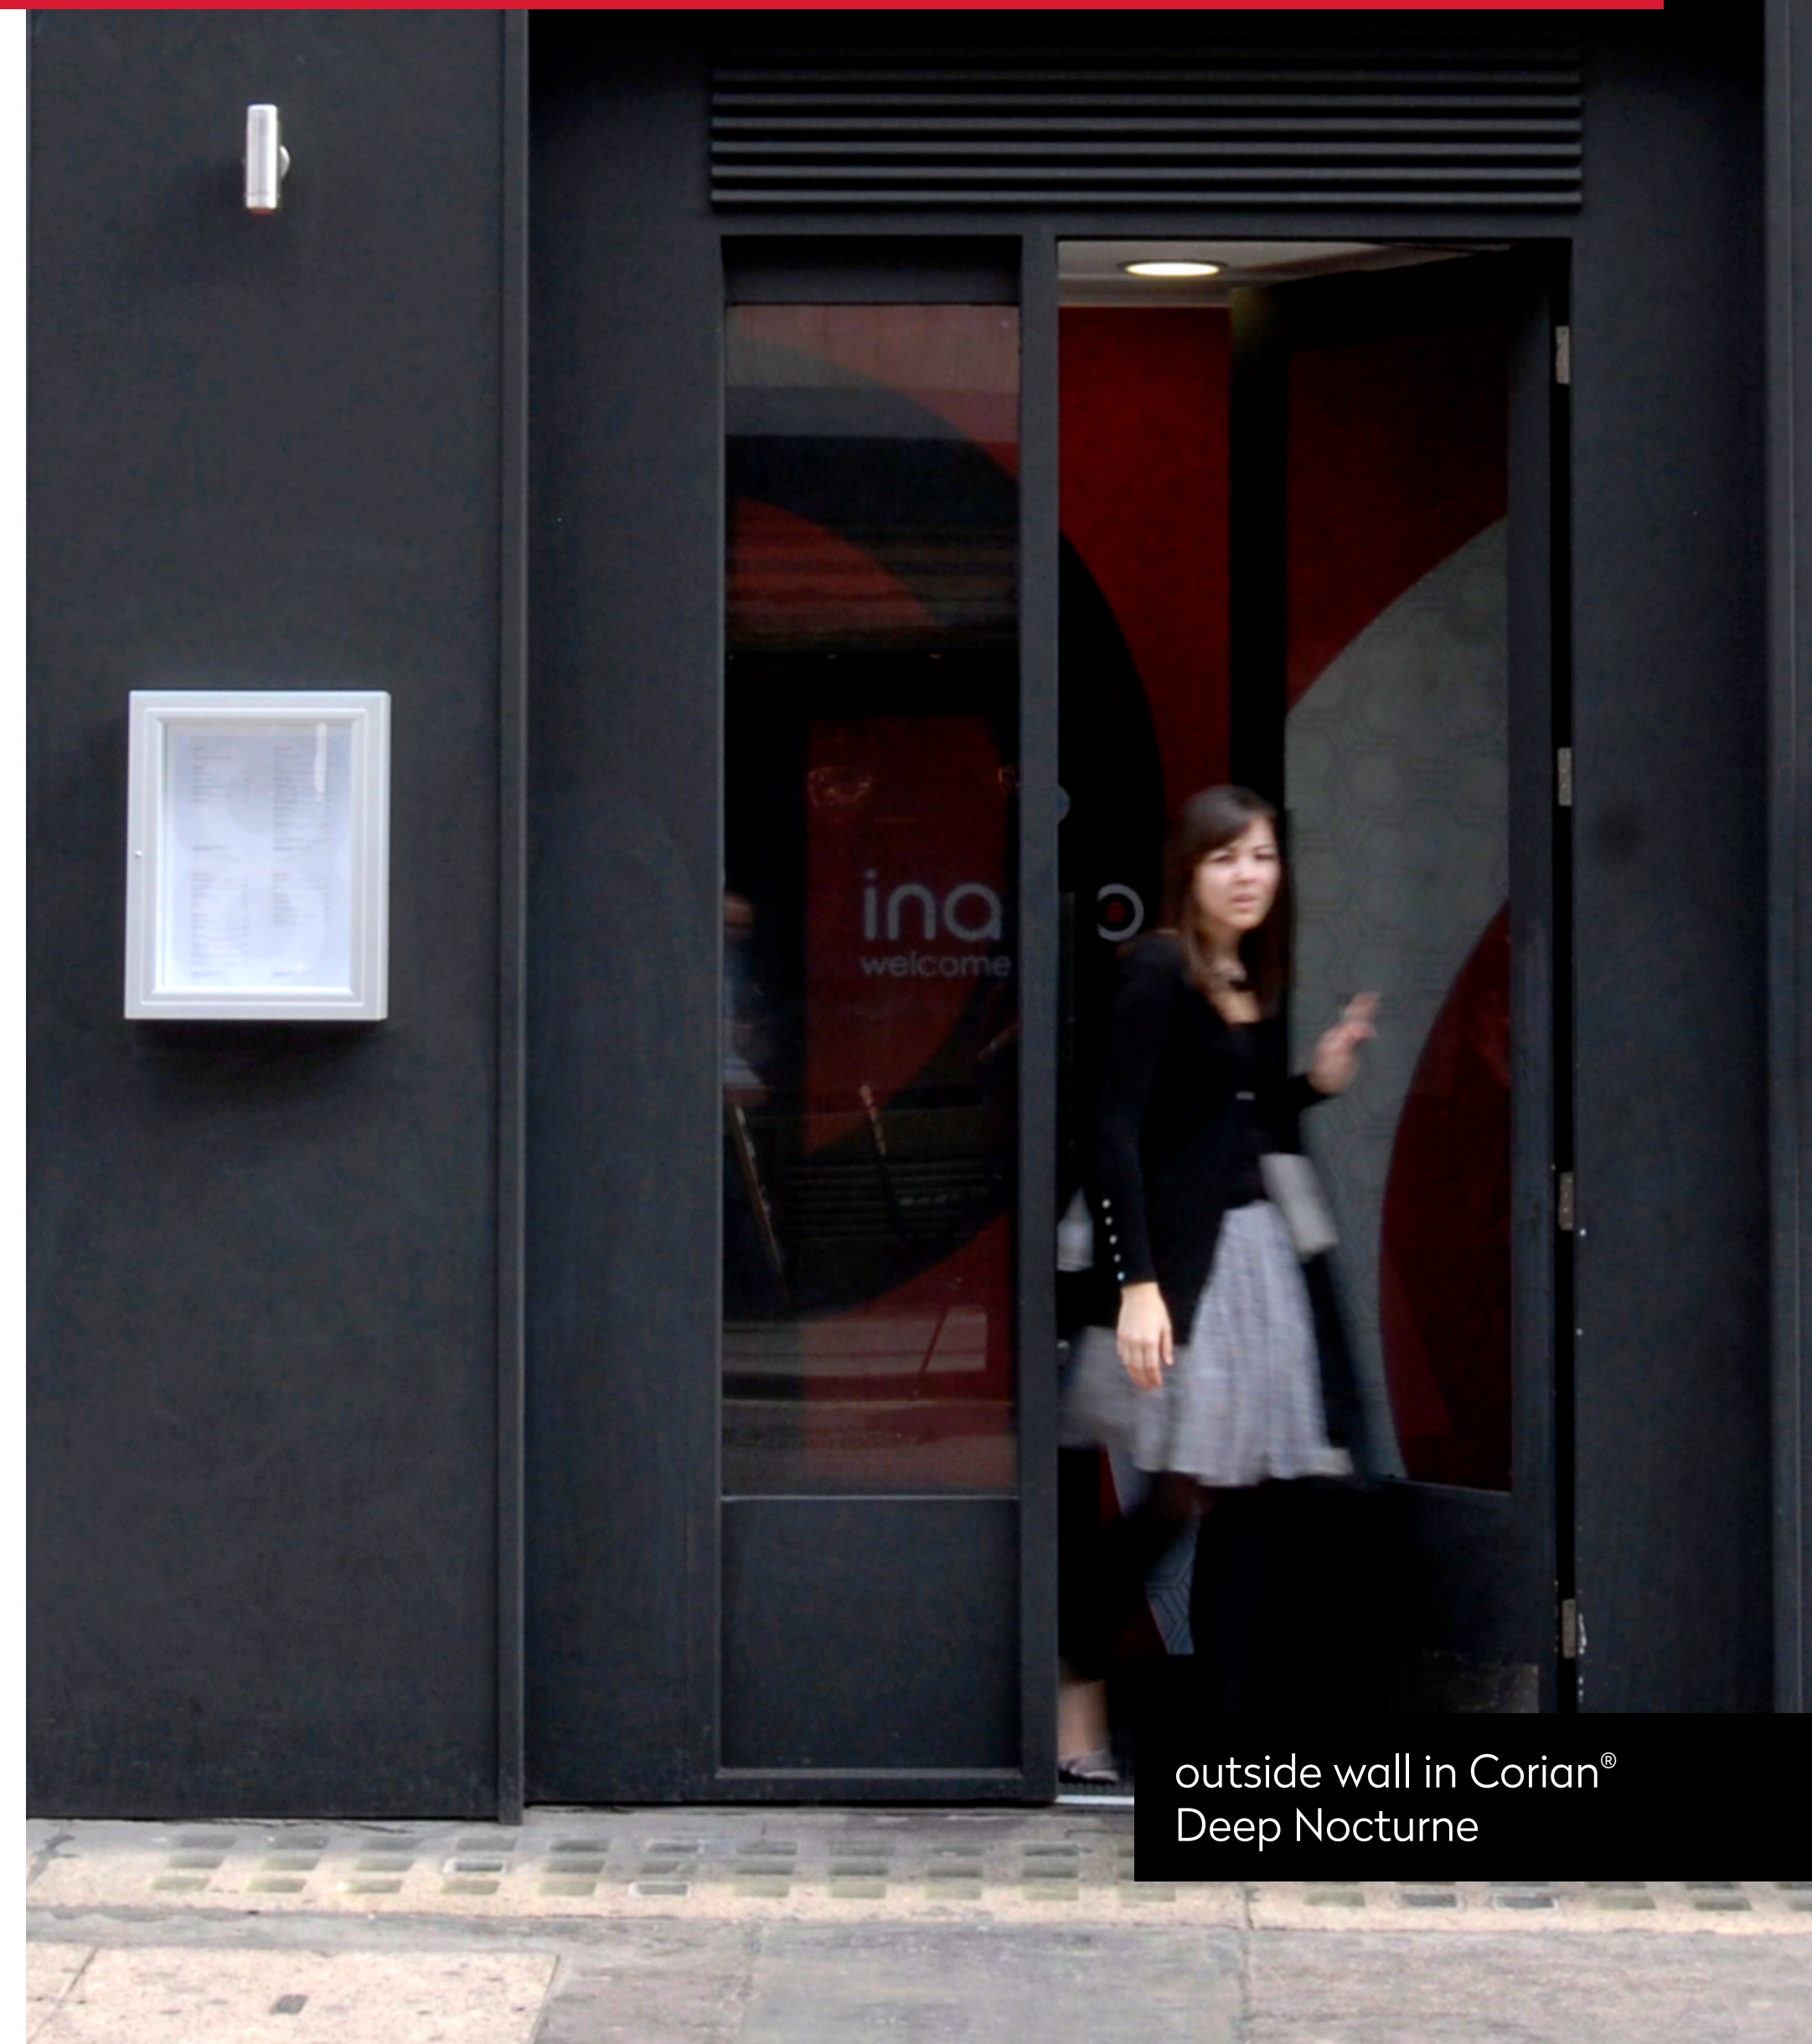

Let's take this outside.

Bring more of your brand experience outdoors, with materials for customizable facades, drive throughs, and signage and seating.

- Corian® Solid Surface is easy-to-clean, stain resistant and renewable.
- Many colors of Corian® Solid Surface can safely be used outside. [Corian® Colorfastness](#)
- Corian® Solid Surface contributes to LEED certification points. Corian® Solid Surface has received various important independent certifications for environmental performance, such as GreenGuard®, NAHB North American Builders Association, and SCS Scientific Certification Systems.

Outside: seating, take-out and more

Bring indoor style and comfort outdoors with Corian® Endura™.

There has always been something special and memorable about alfresco cooking and dining. Turn your restaurant or hospitality space into a destination for outdoor dining with Corian® Endura™ while creating a space for guests to safely gather in style.

Can your weather drastically change over the course of a few days?

With many outdoor materials freezing and thawing cycles can be a concern – and careful consideration is placed on climate conditions when specifying materials for outdoor use. Corian® Endura™ maintains its form and durability in the face of changing weather providing ultimate durability for any outdoor space without sacrificing style

The high heat resistance of Corian® Endura™ makes it an ideal medium for integrated cooking as well as built-fire pits.

Drive thru cladding

All 6 and 12 mm colors of Corian® Solid Surface meet Class A fire performance per NFPA 101® Life Safety Code®

DuPont can provide detailed guidance on how to install Corian® Solid Surface as cladding for one story buildings using a variety of adhesive-based or mechanical techniques that can meet structural performance requirements, including windload

**Why design corners when you can have curves?
Use cladding to add personality to almost any environment.**

- Corian® Solid Surface is highly durable for heavy traffic and usage, and you can repair individual panels without needing to replace the whole panel.
- The unparalleled design flexibility of Corian® makes modern, high-profile designs easily attainable.
- Long-lasting, durable, and elegant, Corian® Solid Surface has a three-dimensional formability, and has been providing virtually unlimited design inspiration for over 50 years.

Interior bars and counters

Corian® Endura™ provides beautiful aesthetics along with high durability for areas where you want to make an impact in your restaurant.

Corian® Endura™ is stain resistant and easy to maintain, to make upkeep of your restaurant even easier. There's no need to worry about spills, scratches or everyday wear and tear.

Indoor guest experience

Promote Ambiance, Comfort and Cleanliness

- Table Tops
- Serving Counters/Beverage Stations
- Bar Tops
- Reception Counters
- Food Preparation Areas
- Wall and Counter Cladding
- Waste Receptacles
- Vanity Tops
- Toilet Partition Systems

Beautiful, Yet So Much More

- Durable, easy to clean and maintain and Corian® Solid Surface is renewable if scratched
- NSF/ANSI Standard 51 Certified for food contact
- With many color aesthetics to choose from, you can create a consistent, warm and inviting ambience and a positive brand experience at one or many locations
- Will not support the growth of mold and mildew when properly cleaned
- Stain resistant (stains cannot permeate and minor surface discoloration is easily removed).
- GREENGUARD Certified® as low VOC-emitting material
- Available in a wide range of colors and in customized options
- Corian® Endura™ is able to withstand constant wear and tear thanks to its structure, so is an ideal product for high traffic areas

Restrooms

Restrooms are an integral part of a positive guest experience. Explore Privacy Plus Partitions as a low maintenance and easy-to-clean solution.

Privacy Plus® Partitions systems designed with Corian® Solid Surface are a durable solution with resistance to chips, cracks and scratches. Privacy Plus® Partitions systems designed with Corian® Solid Surface are available in a wide array of beautiful styles and colors and can be shaped into unique door configurations. Care is simple since Corian® Solid Surface is easy to maintain, and when properly cleaned resists the growth of mold, mildew and bacteria. In addition, Corian® Solid Surface resists staining from uric acid. Privacy Plus® Partition Systems offer the best overall life cycle cost since the system is fully renewable and is a solid system built to last. Plus, it comes with a 25-year limited warranty, making Privacy Plus® a great choice.

Corian® Solid Surface lavatories are a great addition to any bathroom, and BIM objects and CAD drawings are also available.
